MER-03 §3 Quoted-price basis

MER-03 §3.1 — The submitted total of S\$391,500 is in Singapore dollars excluding GST and applies to the configuration stated in MER-02. The line items distinguish equipment and controls from installation, acceptance, eight-person training and the signed service obligation. The C6 figure is the total for tender comparison; no allowance should be added or removed without checking the item to which it relates.

MER-03 §3.2 — The C5 line includes the fixed service term described in the signed service schedule. The tendered total does not rely on an unpriced mandatory option. Any optional research accessory is outside the minimum configuration and would require a separate decision.
