

Flattened proposal comparison

EVAL-002 · Version 0.9 · 2026-09-03 · Evaluation Panel working file · evaluation

EVAL-002 T1

Vendor	S\$ ex GST	Positions/run	SAT	Support compliant	Gate	Score
Northstar	348000	48	2027-01-15	Yes	Pass	91.8
Meridian	391500	52	2027-01-20	Yes	Pass	86.2
Helix	422000	60	2026-11-30	Yes	Pass	81.4
Peregrine	296000	24	2027-01-10	Yes	Fail M3	
Aperture	468000	72	2027-03-15	Yes	Fail M1, M2	

EVAL-002 §1 — Exported comparison for quick review. Support commencement, duration, documentary status and any extension price are not columns in this flattened view.

EVAL-002 §2 Comparison file provenance

EVAL-002 §2.1 — This flat table brings selected submitted values and derived evaluation fields into one row per supplier for sorting and review. It is a convenience extract from the offer schedules and working evaluation, not a substitute for the signed source. The reader should use the cited source IDs to verify any value that affects a mandatory gate or a recommended award. A blank or pending field must not be treated as proof that the underlying submitted obligation exists.

EVAL-002 §2.2 — The comparison retains the panel's current gate labels and scores at the time of export. Any correction to a gate should be made in the controlled evaluation record and then propagated to this extract and downstream summaries. Criterion scores are meaningful for ranking only after the gate decision is settled. This file does not authorise bidder contact, a commercial revision or an award.

Fictional training case; all people, organisations, products, rules and events are invented. This is not A*STAR policy or Singapore procurement law.
