M1 | Total evaluated price ≤ S\$450,000 excluding GST | Submitted commercial schedule

The requirement IDs remain stable across the tender, bidder responses and evaluation records. A response is only marked as compliant if the bidder has provided a concrete submitted passage for each claimed compliance result. A numerical total alone cannot establish compliance. Every mandatory item must be satisfied before a bid receives a weighted value. The observed value, evidence status and any calculation used. Where a capability, price or service component is not required, the value is zero.

For M1, use the complete evaluated price excluding GST and reconcile it with required inclusions. For Acceptance Test date rather than shipment or installation. For M3 and M4 use the delivered technical record if failed or unresolved gate with the exact source passage, not a general impression of the supplier relevant to interpretation, but its status must be retained in the evidence chain. The gate result should
