Content

Category | Approved ceiling, S\$ ex GST

Core platform and mandatory options | 360000

The ceiling includes every mandatory part of a responsive offer. Applicable GST is excluded from the base price and must be identified separately in commercial responses.

The category amounts provide an internal planning breakdown for the complete equipment acquisition ceiling; an individual line is not a separate authorisation to omit a required item. Bidders may distribute the price basis in Singapore dollars excluding GST. Any applicable tax should be shown separately on record, but the equipment ceiling and RFQ mandatory price gate use the excluding-GST figure. The record evidence

The budget file should be read with the grant agreement and the tender's commercial response form. Identify the instrument, configuration, mandatory options, installation and Site Acceptance Test, eight finance review checks.

Check | Evidence | Disposition

Complete instrument configuration | Technical and commercial schedule | Document included mand. Finance should mark each check against the submitted record and clearly any unresolved price or mand. procurement review. The category allocation helps explain the funding plan but does not convert an u
