

Northstar service clarification thread

EMAIL-002 · Version 1.0 · 2026-08-28 · Northstar Metrology and Procurement Office · clarification

EMAIL-002#NST-M01 — Mira Tan, 2026-08-25: Thank you for the signed NX-48 submission. I am reconciling the main response with NST-005 for the evaluation file. The appendix measures its 30-month term from dispatch, while the RFQ asks for support through the project close. Please confirm the submitted basis and, if you intend to change it, send a signed replacement schedule with a complete price before tender close.

EMAIL-002#NST-M02 — Sofia Vale, 2026-08-26: We expect the package can be aligned to the full project period by moving commencement to SAT and adding twelve months. Our regional team is assembling the paperwork. Headquarters approval and a revised service price are still required; I expect to forward a formal revised schedule once those are cleared. The instrument, installation and training lines in our submission are otherwise as quoted. I will update you when the service review has a firm outcome.

EMAIL-002#NST-M05 — Sofia Vale, 2026-08-26: Finance has confirmed that a service extension would need a revised price line, rather than being absorbed into the current service allowance. They have not yet released an amount. The regional office has sent the proposed SAT-based start and additional year to headquarters for review. We expect an answer shortly and will keep the quotation and schedule together.

EMAIL-002#NST-M03 — Mira Tan, 2026-08-27: Please send the authorised signed schedule and the complete revised price when available. We need both in the tender file for any changed service term to be considered. The closing time is 17:00 Singapore time tomorrow. Could you also confirm whether the review will finish in time for your team to submit the documents?

EMAIL-002#NST-M06 — Sofia Vale, 2026-08-27: I have followed up with headquarters and asked our service pricing colleague to hold time for the revised schedule. I do not have the countersigned term or the price sheet to send today. If approval comes through in the morning, I will arrange one coordinated submission rather than separate drafts. I understand the deadline you noted.

EMAIL-002#NST-M04 — Mira Tan, 2026-08-28: Checking once more ahead of this afternoon's close. We have not received a signed replacement schedule or revised commercial sheet in the tender file. If Northstar intends to submit them, please send the complete authorised set by 17:00 Singapore time today. Please advise when to expect it.

Fictional training case; all people, organisations, products, rules and events are invented. This is not A*STAR policy or Singapore procurement law.
